THE CHASE PANT

After 2 successful projects our team is back with an elite team of Bluesign Factories and Mills to push the limits of fashion driven performance and sustainability. We are proud to introduce The Chase Pants – The Ultimate Everyday and Travel Pants.

For over 4 years we have been working behind the scenes with boutique mills and groundbreaking yarn suppliers to create a propriety and innovative fabric we call TT-1. The premium combination of Combat Wool, T-400 Lycra, and Nylon 6,6 to create a dynamic blend of technical fibers to suit the Traveler, Commuter, Explorer, and the Innovator.

Risk And Challenges

This is Boundary's 3rd Kickstarter and we have learned a lot since our launch just over a two years ago. As all of our customers know, our goods are manufactured with a relentless attention to detail and a keen attention to our impact on the planet. Starting a crowd funding campaign is terrifying and amazing but we are extremely prepared to procure fabrics, manufacture high quality products, and fulfill orders on time. We know what we are doing and you can trust our team's experience, intuition, supply chain, and fulfillment team will deliver a product with unbeatable value, quality, and technical abilities. To ensure that The Chase Pant is delivered without a hitch, here is what we have done to make sure this project goes smoothly: Experience: As we mentioned we have learned a lot about customer service and fulfillment since our last project, The Errant Pack. This experience has given us a knowledge base that our team has leveraged to build a world-class fulfillment and customer service team. During this campaign we will be sending out updates regularly and have a robust customer service management team that can answer all your inquiries 08:00 to 18:00 MST. The comments will be answered by Cavin, Brandon, Brad, or the rest of the Boundary team so you will always be getting an answer from the founders on the comments section "we will do our best to get to them all! VAT & Fulfillment: Depending on your location or desired shipment destination your package will be sent from one of our fulfillment centers in the: USA, EU, Singapore, and Hong Kong. Once you complete your survey an order will be provided where you can track the status of your product/package in real-time 24 hours daily. All duties are prepaid, and VAT will be charged on your survey when you checkout. Please note that all VAT and customs expenses are paid before shipment.
